

How to Setup Your Ryan Stone Screen Saver

For use with the Microsoft Windows XP Operating System

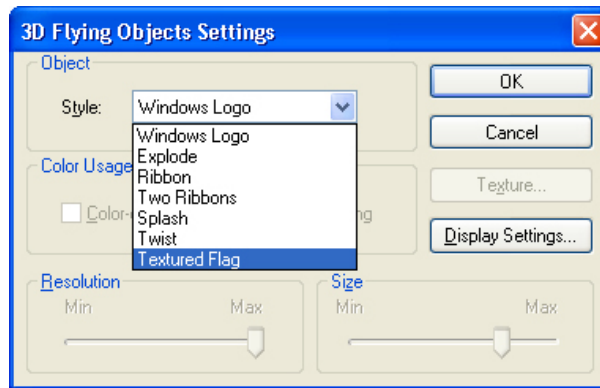

Step 1. Right click on an empty part of your desktop and a small menu will appear. Select **Properties** from this menu.

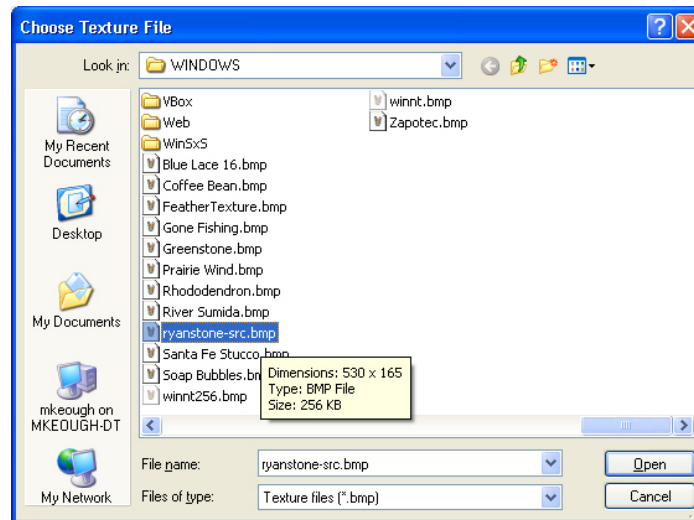

Step 2. Select the **Screen Saver** tab, then from the dropdown menu select **3D Flying Objects**, then select the **Settings** button.

Step 3. Under the **Style** dropdown menu select **Textured Flag and** then select the **Texture** button.

**Step 4.**

Browse through your Windows directory and look for the file labeled **ryanstone-src.bmp**. Select this file and then select the **Open** button.

**Step 5.**

Adjust both the **Resolution** and **Size** slide bars to the **Max** positions, then select **OK**. Adjust the amount of inactivity time you want to wait until your Ryan Stone screen saver appears then select **OK** again to close the Display Settings dialog box. Your new Ryan Stone screen saver is now setup.
